July 2008

To Whom It May Concern:

I am proud to recommend Cammy Lopez of CI Consulting for event coordination services. With little to no direction Cammy organized our company picnic on short notice. She was very thorough in providing entertainment, food and beverages for a large variety of people of all ages. I got so many compliments from long-term employees that this was the best company function they had attended for as long as they could remember.

Cammy organized her team so well that every detail was taken care of before it even came up. It was such a relief to have Cammy provide EVERYTHING we needed. She was wonderful to work with. Cammy was extremely professional and competent. It's also great to work with someone who is local.

Sincerely,
